Invitations by Who? By You!

Did you know that you can make or have made custom invitations that are homemade but look professional right here in the studio?

I have a growing assortment of custom invitation shapes and sizes to meet your need to personalize the invites for your special day.

I will work with you to come up with the perfect design on the computer. Inspiration can come from something you have seen in a magazine or online, perhaps from Pinterest. Then from there you can take over and print, cut and assemble your invites right here in the studio or I can print and cut and you can take home to assemble with your bridesmaids, your fiancé or other family members.

If you prefer to not do any of the work, that's fine too. I can do all the work and you can pick them up and deliver them to your guests when ready.

With today's bride wanting to go outside the box when it comes to her wedding, invitations are no exception. For example, I have dies (a tool that cuts out specific shapes) that will cut out airplane tickets and pocket folder for the bride and groom who plan to have a destination wedding.

So if you are looking for customized invitations, this is the place to get them.

Also available, RSVP, Thank You's, Place setting, Escort cards, Table Numbers, Programs, and more.

Favor Boxes—A Favor-ite

Favor boxes are a popular add in that most couples choose to have at the reception to say thank you to those guest who participated in the special day.

There are many options when it comes to favor boxes. They can be simple or all out embellished.

Traditionally filled with candy, today's couple often chooses other creative ideas from sparklers to hand made soap .

Some box styles I have can even be directly printed from the computer and then cut out and assembled.

As with invitations, you can do the work or I can cut out and you can take home and assemble or I can do all the work.

Price quotes are given on each order as paper, and embellishment vary per order.

Pricing/Service Options

Full Service is the most expensive but frees your time up for other wedding or other event details. This also takes the longest as I am doing all the work. Since each order will be different, I will go over with you what you are looking for, make you a few samples until we get your sample just right and then I will quote you a price and give you a time frame for completion. Should you still wish to proceed, I will get to work right away and when your order is ready I will let you know and you can come pick up.

Should you decide to go with the **Assembly Required** option, we will still work together to get to the work stage with samples and price quote. I will print and cut all pieces. I will then let you know when ready and you can

pick up supplies to take home and assemble at your convenience.

DIY option requires the most work on your part but that is exactly what some people enjoy...like me!

We will still work together to get the computer layout. Then you can print and cut here. For assembly you can do here in the studio.

Or you can then take the pieces home an assemble at your convenience.

Whatever option you decide to go with, your invitations will be uniquely yours and something for you to cherish as a piece of memorabilia from your wedding or other event day.

I recommend whatever option you go with that you have a few extra made just in case.

“I really enjoyed being part of the creative process and appreciated your patience and guidance. Although I don’t consider myself very crafty I was really proud of our final product. Thanks for making it so much fun.”

Got Showers Covered Too!

I also have several fun invitations that work great for showers.

I have an adorable diaper and also onesies for Baby showers and this awesome corset for bridal showers.

Diaper and Corset Invites with mat insert for wording. Open to reveal invite inside.

Creative Add On ~ The Guestbook

I can even make your guest book to coordinate with everything else or make a very simple white one.

We can add as many pages as you one, have guests sign each line or have a page for each guest and have the photographer get their pictures to put on each page.

Have place for each guest to leave some word of love or advice.
Just another way to add a personal touch to your wedding.

Scrapbook Your Event

After the event is over, take some time to write down the memories from the day. There isn't always time to record the event right away. By having notes about special things that happened and keeping with your photos that makes the scrapbooking process much easier to do when you finally get some time to record the event.

At the store we have several albums available and there are so many styles for scrapbooking. One thing for sure is, taking time afterwards to record the event and memories with pictures and journaling leaves you with a

keepsake to cherish and look back to years down the road and for generations to come.

You don't need to have much to do this. The studio is available for crop time. This is when you can come to the studio and use all my tools to create your projects. I have die cut machine and over 700 dies. Thousands of stamps, paper trimmers, punches, binding tools and more.

“Just wanted to let you know how happy Cy and I were with the invitations. “

Come on let's make something!

Newest Favor Box

Our newest favor box is this adorable dress box.

It uses 1 sheet of 8 1/2 x 11 paper and is self closing—yay! no adhesive require.

Embellish with a small piece of ribbon and it looks incredible.

This is one of the easiest and cutest boxes I have. Perfect for showers, weddings or even Sweet 16.
