January Classes

Happy New Year!

Looking forward to another year of creativity and adventure with you.

I have made a few changes to the Membership program with the details below and updated online. I also hope to be offering Group Membership for various organizations later this year, or early next year.

My Year in Review is almost complete. Pictures are in the album and embellishment and some journaling yet to do. I have to say this has been a great way to record my family's year and has been the easiest and most fun method I have ever used over the years and is the first time I have a whole year documented.

I am going to offer an intro class into doing this type of scrapbooking since I feel it is easy enough for even the busiest person to do. Why take all the picture we do and not have it in a record somewhere. My kids have loved being able to pick this album up and see what has happened over the year, as have I.

I am still working on a PDF catalogue of the studio dies, this will be a great resource, as you will be able to see what is available and plan projects accordingly for CROP time. I will continue to update online as I add to it. You will be able to see what dies are available, some samples made, the size of the die and I have also included a section at the back where they are grouped into categories/themes.

Custom stationery has been popular this past year and has seen a variety of items created, looking forward to more creations this year. Perfect for small or large events.
